Integrated Day Services

Integrated Day Services

We offer a community based day program giving individuals choices for community integration. Located

within our IDS program, Our Town Studios offers Paid Artist positions for our individuals under the direction of our on-staff ART Coordinator. Individuals not only earn an income, they also express their creative side!

We also have a video production team, a photography studio and photo editing software, as well as the option to start your own business following your passions. We want to give you the tools and encouragement needed to have successful employment in the community!

Employment First

Competitive employment services are designed to give an individual the supports they need to work as independently as possible in the community.

If someone is interested in this type of employment, a job developer is assigned

to assist with all of the activities involved in securing a new job. This includes developing a vocational goal and résumé, preparing for an interview, and assistance during the interview. Once a position is offered,

the job developer also assists with the hiring paperwork and assures a smooth transition by coordinating job coaching services.

Supportive Living

Creative Foundation's Supportive Living program allows individuals to live as independent as possible in the community. The level of services an individual requires is based on individual abilities and working through a team process. Creative Foundations strongly believes in Self-Determination.

Services under Supportive Living include, but not limited to:

- **House Cleaning**
- **House Maintenance**
- **Grocery Shopping**
- **Budgeting**
- **Medical Appointments**
- **Socialization**
- **Personal Hygiene**
- **Community Integration**
