## We Care

We provide high quality Home and Community Based Services to IO and Level I Waivers.

We serve individuals 24 hours a day, 7 days a week. We work to ensure that the individuals we serve live meaningful and dignified lives in their homes and in the communities.

Our group is composed of direct care providers who have years of experience in providing care and assistance to individuals with disabilities.

We possess the techniques and strategies to support, assist, and instruct each individual in the following areas:

Psychiatric Illness, Intellectual and Developmental Delays, Psychological, Emotional, and/or Behavioral Disorders, Traumatic Brain Injury, Dual Diagnoses, Autism, Severe Physical, Visual and Hearing Impairments, Alzheimer's and More ...

## We Love

## We Believe

Our mission is to vigorously monitor our program in order to witness growth and positive changes in the lives of the people we serve.

Our group is committed to the teamwork necessary to fulfill our mission of supporting, instructing, and helping individuals to reach greater goals.

Our main aim is to create an environment that allows the consumers to view our team as their family, so our greatest expectation is to bring all consumers to the point where they feel hopeful, protected, and secure within the environment we create.

**We believe that having a developmental disability doesn't mean a person can't learn or accomplish greater goals. We have served individuals with autism, down syndrome, cerebral palsy etc..., individuals who have a great capacity to learn and become quite capable people.**
