

We are ComCare Home Care Services, locally owned and operated by a caregiver that has over 25 years of experience serving adults and children with disabilities. We understand the need that people face in trying to find the right care for your loved one and that is why this company was started.

ComCare Home Care Services believes that every life has great purpose despite any type or severity of physical or mental limitation.

We pledge to continue to provide exceptional service and support to people with disabilities throughout their life span regardless of issues of aging, health care changes or other increasing challenges that may become apparent or develop as a person ages.

We accomplish this by providing the following services:

- Individual Options Waiver/Level I/Self Waiver/Supported Living
- Homemaker/Personal Care
- Respite Care
- Transportation
- Delegated Nursing I & II
- Educational & Recreational activities
- 24 hour on-call emergency service
- Staff training specific to individual needs
- Advocacy, advice & education

We design an oversight program, as part of the plan of care, so as to meet changing needs on an ongoing basis. That is, we do monthly Supervisory Visits to ensure your loved one is getting the care they need.

Our caregivers receive over 20 hours of orientation to include First Aid, CPR and training on various disabilities to include autism. Our caregivers go through all the required background check requirements to include 6 web checks, BCI & FBI, as well as reference checks.

Many of our caregivers have experience with adults and children with various disabilities.

Our caregivers are bonded and insured so you have peace of mind.

We would welcome the opportunity to sit down with you and your family to talk about your loved ones needs.

If you would like to meet with someone on our team, call us at (740) 815-0111 or you can email us at [jbushby@comcarehomecare.com](mailto:jbushby@comcarehomecare.com).

Sincerely,

John J Bushby  
President  
ComCare Home Care Services
