Auditory Processing  
Delays

Receptive and  
Expressive language  
delays

Augmentative  
Communication  
Devices

Picture Exchange  
Communication

Thank you for taking the time to review my information. I have 23 years experience working in schools, 7 years in Texas (4 years as a resource teacher and 3 years as a Special Needs Preschool teacher) plus 16 years here in Ohio as a Speech Language Pathologist. While working full time in school settings, I have also done part-time in home private therapy for the past 6 years. I am currently working part-time for Groveport Madison Local School District in 3 Autism classrooms, as well as doing private therapy.

I enjoy working with children of all ages. I believe therapy should be fun and productive. I believe every child has the right to be heard and I love helping each one find their "voice". My goal is to find the best way to help each child and their family, and to provide therapy techniques that can easily be used between sessions for maximum carryover into everyday life. I look forward to talking with you!
