

AUTUMN L. EMIGH
SPEECH LANGUAGE PATHOLOGIST

I believe in family-centered therapy. I want parents to set goals for therapy that will positively impact their everyday life. I use a variety of communication forms for the kids I see – words, sign language, and picture communication are all attempted. I keep parents informed about progress and provide carryover activities to attempt during the week. I look forward to working with your family!

EDUCATION

B.S. in Communication Disorders
Bowling Green State University, 1998

M.S. in Communication Disorders
Bowling Green State University, 2000
