My name is Lisa Lyall and I have been a licensed and certified speech-language pathologist for over 23 years. My career has included providing evaluations and therapy for individuals of all ages. I have worked in nursing homes, a large multi-specialty clinic, and private schools. I have maintained a private practice throughout my career. My primary caseload has been children in the preschool and early elementary school age brackets. Currently I provide therapy services to children referred by Delaware County Board of Developmental Disabilities and a local pediatrician's office. I am also a member of the developmental evaluation team for Help Me Grow.

My education includes a Bachelor of Arts from Baldwin-Wallace College in speech-language pathology and psychology and a Master of Arts in speech-language pathology from Cleveland State University. I attend annual continuing education programs, not only as a licensure requirement, but also as a personal commitment to life-long learning.

My goal is to assist each child in reaching his or her maximum communicative potential. I provide fun, functional, family centered therapy, in my Powell home. I look forward to the opportunity to serve clients of the Delaware County Board of Developmental Disabilities.
