Education:

M.A. University of Akron (2001)
B.S. Grove City College (1998)

I provide speech and language therapy that focuses on the individual needs of your child. I believe in a play-based approach offered in your child's familiar environment. Parents are an integral part of the therapy process and I incorporate family into all aspects of the treatment process. I bring with me knowledge and experience gained from over 12 years in the field, working in the school setting, in private home-based therapy, and with early intervention treatment and evaluation. Let's talk and develop a plan for your child's communication growth. I'm looking forward to working with you.
