

Helping Hands Center

A nonprofit organization with a mission to serve the educational and therapeutic needs of children with autism and other developmental disabilities.

The Education Center

The Education Center features small classroom sizes and low teacher-to-student ratios for students in grades pre-K through middle school. Helping Hands Center provides individualized instruction based on each student's need and learning style. All classrooms are supervised by Master's level educators, Board Certified Behavior Analysts and Psychologists. Typically developing students, who serve as peer models, are welcome in every classroom.

Helping Hands Center ...

- Has 15 classrooms serving 103 students, grades pre-K thru 7.
- Serves an additional 70+ individuals in the Therapy Center.
- Helping Hands Center employs over 100 educators, therapists and administrative staff.

The Therapy Center

Helping Hands Center's Therapy Center serves both the students enrolled in the Education Center as well as individuals who come to the center strictly for its outstanding services in Music, Speech, Occupational and Physical therapies and Psychological services. The center's highly trained and certified therapists work with individuals one-on-one, in small group and in co-treatment sessions.
