HOW WE BEGAN...

Two independent providers began talking about the possibilities of opening up a company where individuals with developmental disabilities really **are** the focus of the services. With over 20 years of experience combined, Lee Ann Davenport and Regina Stutler realized this endeavor was not only possible, but an exciting new opportunity. With this, they realized they truly are 'experienced providers in care', and E.P.I.C. was born.

MISSION

Our Mission at Experienced Providers In Care is to provide individuals with disabilities qualities that are essential to leading humane and productive lives in society. We strive to provide integrity, reliability, and honest services to our individuals, families and guardians. We create an atmosphere where we will be relied on to follow through with the services needed. We strive to move forward with reaching goals above and beyond.

TESTIMONIAL QUOTES

"EPIC has mature, experienced providers who respect my son's home and personal space. They provide complete homemaker personal care services along with recreational services. My son requires a special diet and does not do prepackaged or fast food. I truly appreciate that I did not have to teach staff how to cook, and more importantly, how to keep an apartment clean. Communication is key; EPIC providers know just the right balance of when to keep me informed." -Linda Aldrich

"EPIC...is like a member of our family...they always go above and beyond...we trust them with our lives"-Wendy D.

"I can't begin to express how thankful we are to have EPIC as Heather's provider. EPIC's CEO, Lee Ann has worked with her for 6 years. EPIC has provided excellent care for our sister; they always go above and beyond their duties. EPIC helps our sister with socialization, homemaking, transportation, money management, appointments, and numerous life skills. EPIC is like a member of our family. They have taken such good care of our sister and we trust them with our lives.
