STAFFING

Homewatch CareGivers brings together exceptional people with the education, experience, skill and motivation to deliver exceptional services.

Our caregivers go through over 40 hours of initial training to include First Aid, Adult & Child CPR, HIPAA Compliance, Blood Bourne Pathogens and Client Rights. All caregivers comply with our strict Code of Ethics.

Homewatch CareGivers does 3 levels of pre-employment checks to include character, care expertise and criminal background investigations on every potential employee. Potential employees also go through pre-employment drug testing. All this happens before any caregiver works with any client.

With our Perfect CareGiver Matching, caregivers are carefully and thoughtfully matched to clients to optimize the quality of care.

All caregivers are bonded and insured.

"caregiving is what we do"

CULTURE

Homewatch CareGivers believes in the fact that every life has great purpose despite any type or severity of physical or mental limitation.

Homewatch CareGivers strives to be the provider of choice for adults and children with developmental disabilities by offering quality services that allow individuals to live and strive to their fullest potential.

Homewatch CareGivers pledges to continue to provide exceptional services and support to people with disabilities throughout their life span regardless of issues of aging, health care changes or other increasing challenges that may become apparent or develop as a person ages.

"Being with Homewatch CareGivers is more like being with an extended family than with a company"
Freddie Rufus, Caregiver
